SUMMARY

I am a motivated and detail-oriented emerging MERN Stack Developer skilled in HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB. Proficient in creating responsive web applications, seamless user interfaces, and efficient back-end solutions. A quick learner, adaptable to new technologies, and eager to contribute to innovative projects in a dynamic, collaborative environment.

KEY COMPETENCIES

C++	JavaScript	MongoDB
HTML	Express Js	MySQL
CSS	Node Js	Excellent communication skills

PROJECTS

Online Clothing Store   **2023-24**

Technologies Used: HTML, CSS, JS, Node.Js, Express.Js, MongoDB
- Developed an e-commerce website for GlamGarb, featuring a dynamic home page with a video, carousel, and categories for women, men, and children.
- Implemented a user-friendly interface, user authentication, product management and FAQs.
- Ensured responsiveness for a seamless shopping experience for all users.

Bus Reservation System   **2023**

Technologies Used: C++
- Designed and implemented a system utilizing Data Structures and Algorithms (DSA) to optimize booking processes.
- Managed passenger details and handled all required functionalities for efficient and reliable operations.

Student Management System   **2022**

Technologies Used: C++
- Developed a comprehensive system with an excellent user interface for managing student records.
- Including functionalities for adding, updating, and retrieving student information.
